15TH YEAR. NO. 223.

EAST LIVERPOOL, O., SATURDAY, MARCH 3, 1900.

TWO CENTS

## THE BOERS LOCATED

About Four Miles From British,  
Near Osofontein.

ESTIMATED AT OVER 5,000 MEN.

Left Rested on High Kopje and Right on River—Buller Reports Few Wagons Visible at Van Reenen's Pass—District Otherwise Clear.

OSOFOFTEIN, March 3.—The Boers were located about four miles from the British front, their left resting on a high kopje and their right on the river. The Burcher force was estimated to number between 5,000 and 6,000.

A slight skirmish occurred six miles southeast, in which Colonel Remington had a horse shot under him.

The Boer forces on our front are believed to be under the joint command of Botha, Delarey and Dewet. They are expecting reinforcements from Natal.

The guns that were captured at Paardeberg have been brought here. The rifles captured have, in many cases, Scriptural texts engraved on them, for example: "Lord, Strength This Arm."

It is said that just prior to General Cronje's surrender there was almost a mutiny in the camp.

The British camp was moved here. A heavy rain was falling, the veldt was improving, supplies were rapidly arriving and the men were in good health despite the fact that they had been on half rations for a fortnight.

## WOMEN IN TRENCHES.

One Boer Woman, Before Dying, Said,  
Being a Good Shot, Her Husband  
Made Her Stay.

COLENSO CAMP, March 3.—The Boers lost heavily during Tuesday's fighting. The Lyddite wrought fearful havoc in the trenches. Many of the wounded were quite yellow from the effects of the fumes. Over 100 prisoners were taken. Many of them were Hollanders and a few were genuine Boers. Considerable ammunition for rifles fell into the hands of the British, as well as a damaged Maxim gun. Boers of 16 years of age were among the wounded. The prisoners had not heard of the surrender of General Cronje and discredited it. The majority seemed glad to be captured. They admit heavy losses recently.

The women remained with the Boers in the trenches until about three hours before the British charged. Two women were found, one dead the other fatally wounded. Before she died, the latter said her husband would not let her go, as she was such a good shot. The woman was only 19 years old.

The British casualties were about 200 men.

## DEFEAT OF THE BOERS.

Buller Reported He Had Found It More  
Complete Than He Had Dared  
to Anticipate.

LONDON, March 3.—The war office received the following dispatch from General Buller:

"LADYSMITH, Friday, March 2.—6:30 p. m.—I find the defeat of the Boers more complete than I had dared to anticipate. This whole district is completely clear of them and, except at the top of Van Reenen's pass, where several wagons are visible, I can find no trace of them.

"Their last train left Modder Spruit station about 1 o'clock yesterday and they then blew up the bridge. They packed their wagons six days ago, moving them to the north of Ladysmith, so that we had no chance of intercepting them, but they have left vast quantities of ammunition of all sorts, herds, grass, camp and individual necessities. They have got away with all their guns except two."

Cronje on a British Ship.

CAPE TOWN, March 3.—Gen. Cronje and wife arrived here. The general was received by General Sir Frederick Forestier-Walker and a representative of Sir Alfred Milner, the governor of

Cape Colony. He was taken on board a British ship.

## WOUNDED FOES FRIENDLY.

Roberts Struck With What He Saw at  
Kimberley—Unfortunates Well  
Cared For.

LONDON, March 3.—Lord Roberts wired to the war office from Osofontein, under date of March 2, 4:15 p. m., as follows:

"I have just returned from paying Kimberley a hurried visit. I was much gratified at finding the enthusiasm among the Kimberley people regarding the care of the sick and wounded. All the houses had been converted into hospitals and the men had been made most comfortable.

"I was struck with the friendly manner in which the wounded Boers and our men chatted together upon the experiences of the campaign.

"It delighted me to see our soldiers sharing their rations and biscuits with the Boer prisoners before they commenced their march for Modder river. Some of the poor fellows were very hungry, after having been half starved in the laager."

Supplies For Ladysmith.

LONDON, March 3.—A dispatch from General Buller was received at the war office announcing that 73 wagon loads of supplies were entering Ladysmith, the first 11 wagons containing hospital comforts.

## COSTLY INVESTIGATION.

Clark Senatorial Contest Already Causes  
\$27,000 Expenses to the Gov-  
ernment.

WASHINGTON, March 3.—Both the prosecution and the defense in the investigation of the election of Senator Clark, of Montana, announced that they had concluded the presentation of testimony. There are some papers yet to be examined and the argument is still to be heard. Arrangements for this probably will be made today.

The committee reserves the right to call witnesses in its own behalf, but the feeling is general that the arduous part of the work is finished. All witnesses called by either side have been excused and many of them left last night for their homes.

The investigation began on Jan. 5 and up to date 100 witnesses have been examined. Their testimony will fill between 2,400 and 2,500 pages.

The expense to the government so far has been about \$27,000. A number of witnesses were examined at Friday's session, but the only one who gave important testimony was James W. Kemper, of Butte, whose statement bore upon the purchase of State Representative Wood's ranch. E. L. Whitmore explained his relations with C. W. Clark, as developed in the purchase of State Senator Warner's ranch. The defense introduced three or four witnesses in rebuttal, among them Mr. J. S. M. Neill, of Helena. He denied sending a message to the effect that the state supreme court could be influenced in the Wellcome disbarment case.

## THOUSANDS WILL STRIKE.

Machinists Going Out In Chicago, 33,000  
Building Material Workers May  
Follow, Besides Others.

CHICAGO, March 3.—President James O'Connell, of the Machinists' union, issued orders calling out all the machinists in the city who were working for firms who had not signed the union agreement. Over 1,000 quit work. Nearly 6,000 men, 2,000 of whom are not members of the union, are now out of work, and with few exceptions, all the large machine shops in the city are closed.

Manufacturers of building material and their employees have become involved in the labor troubles as a result of the action of the mill owners and other supply men who voted Thursday to support the contractors. Before the end of next week it is expected that a large proportion of the 33,000 members of the building material trades council will be on strike.

The board of business agents of the council voted to order sympathetic strikes in all factories which furnish material to non-union contractors.

Three thousand wood workers probably will be ordered out.

Cleveland Not In Poor Health.

PRINCETON, N. J., March 3.—The report circulated that ex-President Cleveland is extremely ill and that he will not be able to deliver his lectures before the university this spring is entirely without foundation.

## HELP FOR PORTO RICO

House Adopted the President's  
Recommendation.

DUTIES COLLECTED TO BE USED.

Bill Passed Places In President's Hands  
All Money Collected Since Spanish  
Evacuation—Senate Considers Tariff  
Measure—Teller's Amendment.

WASHINGTON, March 2.—Within two hours after a special message from the president recommending the immediate passage of a bill to place in his hands all the moneys collected upon Porto Rican goods since the Spanish evacuation of the island, amounting to \$2,095,458.88, to be used for the relief of the Porto Ricans, had been read to the house, the house had passed and sent to the senate a bill to carry out the recommendation.

The minority were at first inclined to hail the message with delight as a reproof of the majority for the passage of the Porto Rican tariff bill on Wednesday. The Republican leaders, however, had a bill ready to carry the president's recommendations into effect. Mr. Cannon asked immediate consideration for it and this was given. It was only when the debate opened, it had been agreed that 20 minutes should be allowed on a side, that under the lead of Mr. Bailey of Texas, the Democrats began lining up against the bill because it placed no limitation upon the president's discretion in the use of the money. The bill was passed by a vote of 162 to 107, 13 Democrats, 2 Populists and 2 Silver Republicans voting with the Republicans in the affirmative.

## PLAN FOR PORTO RICO.

Teller Offered an Amendment to the Tar-  
iff Bill—Self Government Under  
Our Sovereignty.

WASHINGTON, March 3.—Consideration of the Porto Rican tariff measure, embodying substantially the provisions of the house bill and, in addition, providing for a temporary form of civil government for the island of Porto Rico, was begun in the senate, Mr. Foraker (Rep., O.), chairman of the committee on Pacific islands and Porto Rico, being in charge of the measure.

Mr. Teller (Colo.) proposed an amendment providing in brief that the purpose of the pending bill is simply to establish a temporary government in Porto Rico, for the purpose of enabling the people of the island later to establish a permanent republican government in which there shall be accorded the people the right of self government, the adoption of a constitution and the establishment of a permanent form of government not interfering with sovereignty of the United States over the island or its inhabitants. This amendment was followed by another by Mr. Stewart (Nev.) striking out the provision levying a duty on Porto Rican goods and providing that they should be admitted free into the United States.

A spirited debate was participated in by Mr. Foraker, Mr. Teller, Mr. Stewart, and others. Mr. Foraker contended that the duties levied on Porto Rican products were necessary, because the island was in need of revenue. Every dollar levied as duties would be turned into the treasury of the island, and the committee held that this was the only practicable means of securing the needed funds. Mr. Stewart strongly upheld the policy of the president, as announced in his last annual message, of giving free trade to the Porto Ricans.

## MESSAGE OF THE PRESIDENT.

Communication Asking For Appropriation  
of Duties to Help Porto Rico.

WASHINGTON, March 3.—The message of President McKinley to congress, contained the following:

To the Senate and House of Representatives: Since the evacuation of Porto Rico by the Spanish forces on the 18th day of October, 1898, the United States has collected on products coming from that island to the ports of the United States the duties fixed by the Dingley act and amounting to \$2,095,458.88, and will continue to collect under said law until congress shall otherwise direct. Although I had the power, and having in mind the best interests of the people of the island, used it to modify duties on goods and products entering into Porto Rico, I did not have the power to remit or modify duties on Porto Rican products

coming into the ports of the United States. In view of the pressing necessity for immediate revenue in Porto Rico for conducting the government thereof and for the extension of public education, and in view also of the provisions of the act just mentioned by the house of representatives and for the purpose of making the principle embodied in that legislation applicable to the immediate past as well as to the immediate future, I recommend that the above sum be so collected, and that the sums hereafter collected under existing law shall, without waiting for the enactment of the general legislation now pending, be appropriated for the use and benefit of the island.

(Signed) WILLIAM MCKINLEY,  
Executive Mansion, March 2, 1900.

## AMENDED RIPPER PASSED.

Senate, at Columbus, Adopted the House  
Amendment to the Cox  
Ripper.

COLUMBUS, March 3.—The Democratic members of the house prepared a message of congratulation to be cabled to General Cronje. It has 44 signatures attached. The message in part is as follows:

"The Democratic members of the house of representatives of Ohio congratulate you and your noble band on your heroism, courage and magnificent fight for human rights and human liberty. In defeat, remember that your deeds of heroism have thrilled the world and filled the temple of fame with admiration for the courage of men."

The senate concurred in the house amendment to the Cox "ripper" for Cincinnati, and it is now a law. As amended, the bill takes the appointing power of the city government out of the hands of the governor and allows the people to choose their own governing board at the April election.

## REPRESENTATION

FULL IN SENATE.

Hoar Said Constitution Framers So In-  
tended—Argued For Seating of  
Quay—Elkins Spoke.

WASHINGTON, March 3.—Senator Hoar (Rep., Mass.) made an argument in the senate in favor of seating Mr. Quay.

He discussed at length the history of the framing of that part of the constitution relating to the election of senators, his particular purpose being to show that the country at large was vastly interested in having every state fully represented in the senate. This idea, he said, was constantly before the framers of the constitution. Mr. Hoar dwelt particularly upon the importance of a single vote, declaring that one vote had changed the policy of the country to imperialism. Was it presumable, he inquired, that the framers of the constitution had intended that in such circumstances as the present the great state of Pennsylvania should have in the senate only half of its representation? In response to an inquiry of Mr. Turley, Mr. Hoar said that in the case of a chief executive of a state the responsibility for action or inaction was definitely fixed upon one man. If the governor did not feel that he was correct in his position before his constituents, he would make no appointment. The framers of the constitution, he said, regarded the governor as a fit depository of power in the appointment of a senator, a proper representative, in such action, of the people.

Mr. Hoar, when asked as to precedents in cases involving the seats of senators said: "Precedents in all election cases are of the least value of any precedents of any judicial or quasi judicial tribunals. Political and personal feeling enters into the determination of these cases and the establishment of these precedents."

Senators knew that the three seats claimed by Messrs. Mantle, Allen and Beckwith were decided against these gentlemen because they were silver men and the senate was about to enter upon the consideration of the repeal of the Sherman law. "I believe," he said, "that this question will never be settled by any vote until it is settled in the right of the senate, the right of the state and the right of the people that every state shall have its full quota of representation in this chamber."

Mr. Turley cited the hypothetical case of the governor of Kentucky calling troops to the state capital, and dispersing the legislature before the election of the United States senator, as had recently happened, after the election of the senator. He held that if the governor subsequently should appoint a senator the senate would certainly refuse him a seat.

Mr. Elkins (W. Va.) said Mr. Quay's merits or demerits or his personality should have nothing to do with the case, which should be decided only on a proper construction of the constitution.

Mr. Elkins maintained it was clearly the intention of the framers of the constitution that each state should be constantly represented in the senate by two senators, and that as a corollary to that proposition, the chief executive of a state is empowered at all times to fill vacancies that happen during the recess of the legislature. To his mind, the language of the constitution was plain, and if it had been employed in an ordinary business transaction of life, there never would have been the least doubt about its meaning.

Free Cases of Plague.

SYDNEY, N. S. W., March 3.—Two fresh cases of the bubonic plague have developed here.

## SPURS AND MACHETES

Cubans Laying In Supply, Also  
Hammocks.

GETTING READY FOR REBELLION.

Havana Correspondent of Mobile Reg-  
ister Sent Such Information—Root Starts  
to Cuba, Being Danger of Something,  
but Said to Be Not Uprising.

MOBILE, Ala., March 3.—The following was received from the Mobile Register's Havana correspondent under date of Feb. 24:

"I have inside information that there is to be a rising on the island before long. Lately there has been great demand for spurs, machetes and hammocks, the three principal implements of Cuban warfare. Several of the stores have sold out their entire stock of these goods."

WASHINGTON, March 3.—Secretary Root left Washington for a flying trip to Cuba. With him were Mrs. Root, Miss Root, Edward Root, his son; Colonel Carter, assistant adjutant general; Private Secretary W. S. Coursey and Arthur Brooks, attendant. It is expected that the trip will occupy about two weeks. The party will embark on the Sedgwick at Tampa today for Havana.

It is known that the main object of the trip is to enable Secretary Root to confer personally with General Wood, and as the latter will accompany the secretary on his tour around the island, there will be ample opportunities for such conferences. It is gathered from rather urgent communications that have been received from Havana that, notwithstanding the apparent serenity of conditions in Havana and Cuba generally, General Wood has reason for grave apprehension as to the future, not because of the possibility of outbreaks, but rather owing to the extreme gravity of important questions that are pressing from all sides for immediate decision.

## M. E. BISHOPS APPEAL

Appoint Week of Prayer In the Church,  
Which Has Decreased In  
Membership.

MINNEAPOLIS, March 3.—The membership of the Methodist church is less than it was two years ago. A committee, composed of Bishops C. H. Fowler, W. X. Ninde and I. W. Joyce, acting on behalf of the body of bishops, has issued an address to the church.

The conditions are carefully outlined and a week of prayer arranged. This will begin March 25, and daily services are to be held in all Methodist churches in the country.

The address says in part: "Today our Methodism confronts a serious situation. Our statistics for the last year show a decrease in the number of our members. The lost ground is paved with the dead. We are surrounded by powerful enemies. The attack is on every side. It is high time for every Methodist to take himself or herself to prayer and to call mightily on God for help."

Some of Students Rebelled.

PITTSBURGH, March 3.—The juniors of the Western university refused to yield to the stern mandates of the faculty regarding the payment of \$15 penalty for taking a "flunk" book, and were forced into involuntary suspension. The sophomores joined the defiant band, winning over with them the two young women of the class. The freshmen determined to cease reciting, too. The seniors make sport of the whole business. As a result the big school on the hill promises to be practically deserted, unless there is a settlement.

The President In New York.

NEW YORK, March 3.—President McKinley and party arrived here. The president will tonight attend the annual dinner of the Ohio society. The party consisted of President and Mrs. McKinley, Miss Mary Barber, General Corbin, Mr. Cortelyou, one of the president's secretaries; Dr. Rixey, a stenographer and two servants.

Kentucky Case In Court.

LOUISVILLE, March 3.—Argument in the cases involving the title to the offices of governor and lieutenant governor was begun before Judge Fields circuit court.

There was a woman in the case and for her the young man purchased many valuable presents, consisting of jewelry, furs, cloaks. ## WINE OF CARDUI

### A SURE MEDICINE.

HANDSON, VA., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Back-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

WINE OF CARDUI

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

## Potters' and Brotherhood Committees on Scale

### EXPECT TO FINISH LABORS SOON

Minor Matters Take Up Most of the Time. There Being Agreement Upon the More Important Details—All the Pottery News of the Week.

The executive committee of the Potters' association and the uniform wage scale committee of the Brotherhood will hold another conference at Pittsburg next Tuesday.

There is not much more to come before the committees; but still it may require considerable time, as it has been found thus far that little things, and very often insignificant points, required in some instances nearly half a day to settle. The present method of conferences, on the scale says the Commoner, is something new for both the manufacturers and operatives and it is hardly expected that they would get down to the system that greater experience and confidence will naturally develop. The diversity of work and manner of working is very complicating in branches, particularly between the east and the west and to arrive at a satisfactory basis to meet the requirements or customs of each section, requires wisdom on the part of the committees.

On the eve of adjournment Saturday, there was nothing to indicate that the committee would not complete the uniform scale or that there was anything on which there would be a split.

## TRADE IS GOOD.

### The Potteries Are Having a Good Run and Trade Will Likely Continue.

The potteries still continue to have a good run and an abundance of orders is reported from every section. This being the condition now, when the season is only just opened, the indications seem to point to an unusually active trade later on. One of the features of the pottery industry this spring is the number of new plants under way and projected. These are not confined to the old centers of pottery production either, but are

The Warren Chronicle says East Liverpool parties are inquiring about erecting a pottery there.

The East Liverpool pottery has given Tod M. E. church, Warren, a dinner set of 300 pieces of queensware.

A Trenton correspondent to the Commoner this week calls attention to the fact that the hollow ware pressers are greatly under paid and thinks a remedy should be devised. He says that the pressers are compelled to work 10 and 12 hours a day to make living wages. The reason given for this is that shapes are becoming more unique and elaborate.

The pressers initiated six new members as their meeting held this week.

James Winters, a finisher at Harker's, fell this week and dislocated his arm.

## TO RUN NEXT YEAR.

City Treasurer S. T. Herbert Will Be a Candidate For County Treasurer.

City Treasurer Sherman T. Herbert will be a candidate for the nomination for county treasurer at the Republican county primaries next Spring. He has been city treasurer since 1896, being elected for his first term when 27 years of age, the youngest treasurer the city ever had. He was re-elected in 1898 and was renominated for a third term unopposed last Saturday at the Republican city primaries. His first appearance in politics was when a boy of 12 when he was appointed a page in the state senate by Lieutenant Governor Heckenlooper. He is preparing to make a hustling fight for the nomination.

### Rejected Dead Man's Application.

The members of the board of pardons are entitled to another guess in one of their decisions yesterday. They rejected the application for pardon of Patrick H. Malone, of Columbiana county. He died February 13, so the shock to him will not be great. He was serving a 12-year sentence for manslaughter, and his application had been before the board for several months. But then they have pardoned worse than dead men.—Columbus Press Post.

## Committee Fixed the Value on Farm Lands.

## THE FIGURES WERE NOT HIGH

And It Won't Break Any of the Property Owners to Pay Their Assessments—The Light Franchise Was Also Discussed and George Is Ordered to Establish a Grade.

Councilmen Marshall, Smith, Cain and Ashbaugh met yesterday afternoon in the office of Engineer George for the purpose of setting a value on the farm lands along Pennsylvania avenue. It took the committee nearly all afternoon, but they succeeded in getting the work finished.

The committee placed a value of \$50 on 36 lots; \$40 on 15 lots; \$45 on one lot; \$35 on 45 lots; \$30 on 32 lots; \$25 on four lots; \$90 on two lots; \$105 on one lot; \$75 on one lot.

The committee then had an informal discussion upon the electric light franchise, but took no action, and finally decided to take a walk up to Thompson's hill, where S. H. Porter wants to build a new house and he wants a grade. The committee viewed the place and instructed the engineer to establish a grade on Pennsylvania avenue from Robinson street to Ravine street.

## THE ELECTION.

## The Athenian Literary Society of the High School Selects Officers.

The Athenian Literary society of the high school elected officers yesterday afternoon. The result was not announced, but the tellers say it was as follows: President, Sterling Newell; vice president, Samuel Firth; secretary, Miss Georgie Croxall; assistant secretary, Miss Emma Bloor; critics, William Louthan, Ruby Ikirt, Miss Hanley; usher, Mr. George. A mistake was made in the count, and when the totals were footed up it was discovered that there were 164 votes and only 141 ballots. The tangle will be straightened out by Monday.

The literary exercises were excellent, and the debate, "Resolved, That war promotes civilization," was won by the affirmative, Miss Helen Orr and Mr. Thompson. The negative was represented by Miss Laura Hill and Ralph Mackintosh.

The bills for the month amount to \$210.45.

## What Joyce Thinks of Mercer.

"I certainly do wish that Tebeau would get Mercer" said Bill Joyce. "With Winnie, Young, Powell and Cappy, not to speak of Jones and Sudhoff, Pat would keep them all busy. Yes, I regard Mercer as the equal of any pitcher, as a pitcher, and the superior of any of them as a batter and base runner." —Pittsburg Chronicle.

## GET INSIDE.

Your Friends and Neighbors in East Liverpool Will Show You How.

Rubbing the back won't cure backache.

A liniment may relieve, but can't cure. Backache comes from the inside, from the kidneys.

Doan's kidney pills get inside. They cure sick kidneys.

Here is East Liverpool proof that this is so:

Mr. H. Thompson, of 306 Fourth street, presser at the D. E. McNicol pottery, and resident of East Liverpool for the past 45 years, says: "During my campaign experiences between the years of '61 and '64 I contracted a weakness of the kidneys, and at intervals I had an aching pain across the small of my back and was subject to attacks of muscular rheumatism especially in damp weather. I was frequently so bad that I could scarcely get up when down, and in fact could hardly get around at all. I tried many remedies endeavoring to get rid of my trouble, but found nothing until I got Doan's kidney pills at the W. & W. pharmacy. They filled the bill exactly, giving me almost immediate relief, and warded off the last attack."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no other.

No other M. D. has so many cures to his credit. No other M. D. has made so many wonderful cures. So-called "hopeless" cases, chronic cases, "incurable" cases have all been cured, not once or twice, but thousands of times, by the use of that remarkable remedy.

## Dr. Pierce's Golden Medical Discovery.

"My husband had been coughing for years and people frankly told me that he would go into consumption," writes Mrs. John Shireman, of No. 255 25th Place, Chicago, Ill. "In the spring of 1888 he took measles. He caught cold, the measles then settling on his lungs, causing such terrible coughing spells, we not only grew much alarmed, but looked for the bursting of a blood vessel or a hemorrhage at almost any time. After three days' coughing he was too weak to cross the room. The doctor who lived with us on the same floor did him no good. I went to the other end of the town and stated the case to a druggist, who then handed me a bottle of Dr. Pierce's Golden Medical Discovery. My husband's recovery was remarkable in its speed. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around and in two more days he went to work. Two bottles cured him."

Sick people are invited to consult Dr. Pierce by letter absolutely free of charge. Every letter is treated as strictly private and sacredly confidential. All answers are sent in plain envelopes without any printing upon them. Address Dr. R. V. Pierce, Buffalo, N. Y.

## EPWORTH LEAGUE.

Topic For the Week Beginning  
March 4, "How God Pays Men,"  
Text, Math. xii, 30; xx, 1-16.

"They received every man a penny."  
Some had worked only an hour. They had no expectation of receiving more than one hour's pay. They were paid a day's wage. They earned a little and were given much because of their need and their employer's generosity.

Some worked all day and received their stipulated wage. This was justice. It supplied all their need. There was no call for more except from this greed. The employer saw no occasion for exercising generosity toward them. To have given charity would have been to waste his money and encourage in them the pauper spirit. It would be a possible bid for indolence on the morrow and refusal or neglect to work more than the one hour.

Things are not distributed evenly in this world. Why should they be? Justice and generosity are both needed. Neither requires that all persons shall share alike in honors, opportunities, pleasures, privations and pains. Fraternity among men does not largely depend upon equality in social condition nor upon equal ability in acquiring wealth. Liberty to make the most of oneself and attain the most worthy character is dependent in but small degree upon accidents of birth, occupation and riches. All dreams of equality based on an equal distribution of wealth and all attempts to realize such a social condition must be doomed to failure in such a world as this, where the Lord of the Manor conducts his work on the plan shown in this parable. No one is defrauded of his right to labor and to receive proper compensation. No one has the right to complain because his fellow worker receives a gift, if his own pay is not thereby made unjustly small.

Gratitude and admiration and not envy and censure are the sentiments which the generosity of the Master should awaken in all His laborers.

Men are unlike in make up and widely differ in desires and aims as well as in equipment. No dead level of sameness can be maintained for any length of time, even if it could be established, which it cannot be.

Some can serve but one hour at the utmost; others can and should serve the whole day. Each should do his duty because the Master has hired him and not because of what his fellow workers say and feel. Every one should rejoice in the knowledge that he shall be dealt with justly and all his needs will be supplied. He has no claim on charity but his need, and it is his business to labor diligently to supply all his need so far as he can himself.

Consider how generously God has dealt with you, and it will save you from jealousy of your neighbor, from covetousness and complaining.

### The Worth of Work.

Value depends largely on the position from which it is received. How much is God really indebted to you for what you have done so far in this world? Have you contributed in any way to its betterment? Is it a more valuable world to Him because you have been here? What is your work, and what are you worth to Him?

What is your position worth to you? Are you getting anything out of it worth while? Of one man at least it was true "it were better for that man if he had never been born." Some persons ruin more stock than their work is worth. Some men end worse than they began. It is bad enough to spoil work; it is far worse to ruin oneself.

Not what one gets, but what he becomes is the most valuable result of work in this world. Manhood counts for more than money. "Wisdom is above rubies." Work gives the chance to make worth of character, and this is much more than increasing value of products over cost of raw material. The hands are busy with yardstick, scales, hammer, loom and spindle. Pen and tongue are busy. Planning and inventing and persuading tax all powers, and all these bring cash. Of more permanent value and of higher worth is the development of self they afford. The man is made greater than all his work if he be a true workman. He gets capacity and skill and ability beyond all his wages. He earns more than the pay roll can ever indicate. Enlargement of purse is the first result and is useful, but stronger hands,

quicker eyes and ears, warmer heart and broader soul is better, and all these lie at the end of the day's labor for him who works with God.

### He Is Coming.

It may be in the evening  
When the work of the day is done  
And you have time to sit in the twilight  
And watch the sinking sun.  
Let the door be on the latch  
In your home;  
For it may be in the gloaming  
I will come.

It may be when the midnight  
Is heavy upon the land,  
With the black waves lying dumbly  
Along the sand.  
Though you sleep, tired out, on your couch,  
Still your heart must wake and watch  
In the dark room;  
For it may be that at midnight  
I will come.

It may be at the cockcrow,  
When the night is dying slowly  
In the sky.  
Behold, I say unto you, watch!  
Let the door be on the latch  
In your home.  
In the chill before the dawning,  
Between the night and morning,  
I may come.

"Weep not," He said, "for unto you is given  
To watch for the coming of His feet  
Who is the glory of our blessed heaven.  
The work and watching  
Will be very sweet  
Even in an earthly home,  
And in such an hour as ye think not  
He will come."

### A DAY IN WALL STREET.

The Metal Stocks Affected by Rumors of  
New Combinations, Labor  
Troubles, Etc.

NEW YORK, March 3.—The stock market failed to show any positive strength at any time during the day, Friday, and in the late dealings the whole list yielded to bear pressure on the news of the threatening aspect of affairs amongst the metal workers in Chicago. The bears supplemented the news of the labor troubles with many vague rumors of a purpose to defer dividends. Reports were circulated also of enormous rival combinations to be organized to compete in this industry. As the result of this pressure, the majority of the stocks in the group were depressed from  $2\frac{1}{4}$  to 3 points. The character of much of the selling was made obvious by the sharp rallies on bear coverings, American Hoop, Tennessee Coal and National Steel recovering from 2 to 3 points at different times.

Sugar dropped to par for the first time since the summer depression of 1896, incident to the national political campaign, and fell further to 96 $\frac{1}{2}$ , rallying feverishly and closing unsteady at a net loss of 6 $\frac{1}{4}$ . Third Avenue suffered from additional liquidation incident to fears of a heavy assessment on the stock, and fell an extreme  $4\frac{3}{4}$ , to a level almost 200 points under the high price of February last year. The stock rallied sharply and was well supported during the latter part of the day.

The railroad stocks yielded unwillingly until the late raid on the market, when large blocks were thrown over, St. Paul leading the decline with an extreme drop of 2 points. Baltimore and Ohio, New York Central and Southern Pacific were also notably affected. The late rally on bear covering reduced the net losses of the railroads to fractions, except in the cases mentioned.

The prospect of a heavy decline in surplus reserves in the bank statement induced some selling, but the preliminary estimates of the cash movement by express indicate a small net gain in the interior movement. This is attributed to shipments by interior banks to New York for the purpose of buying government bonds. But the gain on this account is quite insignificant compared with the week's losses by the banks to the sub-treasury, which have amounted to \$7,498,000, thus making inevitable a further decline of several millions in the surplus reserves of the banks.

The bond market was rather dull and prices yielded in sympathy with stocks. Total sales par value \$1,035,000.

United States 5s declined  $\frac{1}{4}$  in the bid price.

### The Chicago Grain Market.

CHICAGO, March 3.—The wheat market opened weak Friday on the heavy Argentine shipments and lower Liverpool cables, but recovered on a better cash demand, closing firm, May a shade over Thursday. May corn closed a shade lower, May oats unchanged and the provision markets  $2\frac{1}{2}$ @5 cents improved.

### Funeral of Samuel Manear.

HARRISBURG, March 3.—Samuel Manear, the last of the three Democrats who betrayed Colonel John W. Forney in the legislature of 1857 and voted for General Simon Cameron for United States senator, was buried in Harrisburg cemetery. Mr. Manear died at the residence of his daughter, in this city, at the age of 84 years.

WASHINGTON, March 3.—Congressman Sydney Eppes, of Virginia, who was operated on for appendicitis, died at Garfield hospital.

## RATCHFORD ON TAYLER.

Says the Congressman's Experience Entitles him to Renomination.

M. D. Ratchford, of the national industrial commission, is an ardent supporter of Congressman R. W. Tayler. He says:

"Mr. Tayler is a hard and earnest worker and certainly a good representative. His record is so clean that even his political opponents have never successfully assailed it, and his influence in congress, as a result of the marked ability displayed in the celebrated 'Roberts case' and other public questions, is tenfold greater than ever before.

"Coupled with these enviable qualities is the fact that as our representative in congress for six years, Mr. Tayler has acquired a thorough knowledge of the various industries of our district and of the wants of our people, so far as federal legislation is concerned, which knowledge is of the highest importance, and can only be gained by years of actual experience.

"In view of these things, and much more that could be said, I can hardly believe that the Republicans of the Eighteenth district want a new congressman. Mr. Tayler is filling the seat with credit, once so well filled by McKinley, and should he be returned to congress his re-election means an endorsement of the policy of the party which he has so loyally supported, a well deserved tribute to his ability as a man and a compliment to the judgment of those who have given him three successive elections."

About Four Miles From British, Near Osfontein.

ESTIMATED AT OVER 5,000 MEN.

Left Rested on High Kopje and Right on River—Buller Reports Few Wagons Visible at Van Reenen's Pass—District Otherwise Clear.

OSFONTEIN, March 3.—The Boers were located about four miles from the British front, their left resting on a high kopje and their right on the river. The Burgher force was estimated to number between 5,000 and 6,000.

A slight skirmish occurred six miles southeast, in which Colonel Remington had a horse shot under him.

The Boer forces on our front are believed to be under the joint command of Botha, Delarey and Dewet. They are expecting reinforcements from Natal.

The guns that were captured at Paardeberg have been brought here. The rifles captured have, in many cases, Scriptural texts engraved on them, for example: "Lord, Strength This Arm."

It is said that just prior to General Cronje's surrender there was almost a mutiny in the camp.

The British camp was moved here. A heavy rain was falling, the veldt was improving, supplies were rapidly arriving and the men were in good health despite the fact that they had been on half rations for a fortnight.

## WOMEN IN TRENCHES.

One Boer Woman, Before Dying, Said, Being a Good Shot, Her Husband Made Her Stay.

COLENSO CAMP, March 3.—The Boers lost heavily during Tuesday's fighting. The lyddite wrought fearful havoc in the trenches. Many of the wounded were quite yellow from the effects of the fumes. Over 100 prisoners were taken. Many of them were Hollanders and a few were genuine Boers. Considerable ammunition for rifles fell into the hands of the British, as well as a damaged Maxim gun. Boers of 16 years of age were among the wounded. The prisoners had not heard of the surrender of General Cronje and discredited it. The majority seemed glad to be captured. They admit heavy losses recently.

The women remained with the Boers in the trenches until about three hours before the British charged. Two women were found, one dead the other fatally wounded. Before she died, the latter said her husband would not let her go, as she was such a good shot. The woman was only 19 years old.

The British casualties were about 200 men.

## DEFEAT OF THE BOERS.

Buller Reported He Had Found It More Complete Than He Had Dared to Anticipate.

LONDON, March 3.—The war office received the following dispatch from General Buller:

"LADYSMITH, Friday, March 2.—6.30 p. m.—I find the defeat of the Boers more complete than I had dared to anticipate. This whole district is completely clear of them and, except at the top of Van Reenen's pass, where several wagons are visible, I can find no trace of them.

"Their last train left Modder Spruit station about 1 o'clock yesterday and they then blew up the bridge. They packed their wagons six days ago, moving them to the north of Ladysmith, so that we had no chance of intercepting them, but they have left vast quantities of ammunition of all sorts, herds, grass, camp and individual necessities. They have got away with all their guns except two."

Cronje on a British Ship.

CAPE TOWN, March 3.—Gen. Cronje and wife arrived here. The general was received by General Sir Frederick Forester-Walker and a representative of Sir Alfred Milner, the governor of

Cape Colony. He was taken on board a British ship.

## WOUNDED FOES FRIENDLY.

Roberts Struck With What He Saw at Kimberley—Unfortunates Well Cared For.

LONDON, March 3.—Lord Roberts wired to the war office from Osfontein, under date of March 2, 4.15 p. m., as follows:

"I have just returned from paying Kimberley a hurried visit. I was much gratified at finding the enthusiasm among the Kimberley people regarding the care of the sick and wounded. All the houses had been converted into hospitals and the men had been made most comfortable.

"I was struck with the friendly manner in which the wounded Boers and our men chatted together upon the experiences of the campaign.

"It delighted me to see our soldiers sharing their rations and biscuits with the Boer prisoners before they commenced their march for Modder river. Some of the poor fellows were very hungry, after having been half starved in the laager."

Supplies For Ladysmith.

LONDON, March 3.—A dispatch from General Buller was received at the war office announcing that 73 wagon loads of supplies were entering Ladysmith, the first 11 wagons containing hospital comforts.

## COSTLY INVESTIGATION.

Clark Senatorial Contest Already Causes \$27,000 Expenses to the Government.

WASHINGTON, March 3.—Both the prosecution and the defense in the investigation of the election of Senator Clark, of Montana, announced that they had concluded the presentation of testimony. There are some papers yet to be examined and the argument is still to be heard. Arrangements for this probably will be made today.

The committee reserves the right to call witnesses in its own behalf, but the feeling is general that the arduous part of the work is finished. All witnesses called by either side have been excused and many of them left last night for their homes.

The investigation began on Jan. 5 and up to date 100 witnesses have been examined. Their testimony will fill between 2,400 and 2,500 pages.

The expense to the government so far has been about \$27,000. A number of witnesses were examined at Friday's session, but the only one who gave important testimony was James W. Kemper, of Butte, whose statement bore upon the purchase of State Representative Wood's ranch. E. L. Whitmore explained his relations with C. W. Clark, as developed in the purchase of State Senator Warner's ranch. The defense introduced three or four witnesses in rebuttal, among them Mr. J. S. M. Neill, of Helena. He denied sending a message to the effect that the state supreme court could be influenced in the Wellcome disbarment case.

## THOUSANDS WILL STRIKE.

Machinists Going Out in Chicago, 33,000 Building Material Workers May Follow, Besides Others.

CHICAGO, March 3.—President James O'Connell, of the Machinists' union, issued orders calling out all the machinists in the city who were working for firms who had not signed the union agreement. Over 1,000 quit work. Nearly 6,000 men, 2,000 of whom are not members of the union, are now out of work, and with few exceptions, all the large machine shops in the city are closed.

Manufacturers of building material and their employees have become involved in the labor troubles as a result of the action of the mill owners and other supply men who voted Thursday to support the contractors. Before the end of next week it is expected that a large proportion of the 33,000 members of the building material trades council will be on strike.

The board of business agents of the council voted to order sympathetic strikes in all factories which furnish material to non-union contractors.

Three thousand wood workers probably will be ordered out.

## HELP FOR PORTO RICO

House Adopted the President's Recommendation.

DUTIES COLLECTED TO BE USED.

Bill Passed Places In President's Hands All Money Collected Since Spanish Evacuation—Senate Considers Tariff Measure—Teller's Amendment.

WASHINGTON, March 2.—Within two hours after a special message from the president recommending the immediate passage of a bill to place in his hands all the moneys collected upon Porto Rican goods since the Spanish evacuation of the island, amounting to \$2,095,458.88, to be used for the relief of the Porto Ricans, had been read to the house, the house had passed and sent to the senate a bill to carry out the recommendation.

The minority were at first inclined to hail the message with delight as a reproof of the majority for the passage of the Porto Rican tariff bill on Wednesday. The Republican leaders, however, had a bill ready to carry the president's recommendations into effect. Mr. Cannon asked immediate consideration for it and this was given. It was only when the debate opened, it had been agreed that 20 minutes should be allowed on a side, that under the lead of Mr. Bailey of Texas, the Democrats began lining up against the bill because it placed no limitation upon the president's discretion in the use of the money. The bill was passed by a vote of 163 to 107, 13 Democrats, 2 Populists and 2 Silver Republicans voting with the Republicans in the affirmative.

## PLAN FOR PORTO RICO.

Teller Offered an Amendment to the Tariff Bill—Self Government Under Our Sovereignty.

WASHINGTON, March 3.—Consideration of the Porto Rican tariff measure, embodying substantially the provisions of the house bill and, in addition, providing for a temporary form of civil government for the island of Porto Rico, was begun in the senate, Mr. Foraker (Rep., O.), chairman of the committee on Pacific islands and Porto Rico, being in charge of the measure.

Mr. Teller (Colo.) proposed an amendment providing in brief that the purpose of the pending bill is simply to establish a temporary government in Porto Rico, for the purpose of enabling the people of the island later to establish a permanent republican government in which there shall be accorded the people the right of self government, the adoption of a constitution and the establishment of a permanent form of government not interfering with sovereignty of the United States over the island or its inhabitants. This amendment was followed by another by Mr. Stewart (Nev.) striking out the provision levying a duty on Porto Rican goods and providing that they should be admitted free into the United States.

A spirited debate was participated in by Mr. Foraker, Mr. Teller, Mr. Stewart, and others. Mr. Foraker contended that the duties levied on Porto Rican products were necessary, because the island was in need of revenue. Every dollar levied as duties would be turned into the treasury of the island, and the committee held that this was the only practical means of securing the needed funds.

Mr. Stewart strongly upheld the policy of the president, as announced in his last annual message, of giving free trade to the Porto Ricans.

## MESSAGE OF THE PRESIDENT.

Communication Asking For Appropriation of Duties to Help Porto Rico.

WASHINGTON, March 3.—The message of President McKinley to congress, contained the following:

To the Senate and House of Representatives:

Since the evacuation of Porto Rico by the Spanish forces on the 18th day of October, 1898, the United States has collected on products coming from that island to the ports of the United States the duties fixed by the Dingley act and amounting to \$2,095,458.88, and will continue to collect under said law until congress shall otherwise direct. Although I had the power, and having in mind the best interests of the people of the island, used it to modify duties on goods and products entering into Porto Rico, I did not have the power to remit or modify duties on Porto Rican products

coming into the ports of the United States. In view of the pressing necessity for immediate revenue in Porto Rico for conducting the government there and for the extension of public education, and in view also of the provisions of the act on just inaugurated by the house of representatives and for the purpose of making the principle embodied in that legislation applicable to the immediate past as well as to the immediate future, I recommend that the above sum be so collected, and that the sums hereafter collected under existing law shall, without waiting for the enactment of the general legislation now pending, be appropriated for the use and benefit of the island.

(Signed) WILLIAM MCKINLEY, Executive Mansion, March 2, 1900.

## AMENDED RIPPER PASSED.

Senate, at Columbus, Adopted the House Amendment to the Cox Ripper.

COLUMBUS, March 3.—The Democratic members of the house prepared a message of congratulation to be cabled to General Cronje. It has 44 signatures attached. The message in part is as follows:

"The Democratic members of the house of representatives of Ohio congratulate you and your noble band on your heroism, courage and magnificent fight for human rights and human liberty. In defeat, remember that your deeds of heroism have thrilled the world and filled the temple of fame with admiration for the courage of men."

The senate concurred in the house amendment to the Cox "ripper" for Cincinnati, and it is now a law. As amended, the bill takes the appointing power of the city government out of the hands of the governor and allows the people to choose their own governing board at the April election.

## REPRESENTATION

FULL IN SENATE.

Hear Said Constitution Framers So Intended—Argued For Seating of Quay—Elkins Spoke.

WASHINGTON, March 3.—Senator Hoar (Rep., Mass.) made an argument in the senate in favor of seating Mr. Quay.

He discussed at length the history of the framing of that part of the constitution relating to the election of senators, his particular purpose being to show that the country at large was vastly interested in having every state fully represented in the senate. This idea, he said, was constantly before the framers of the constitution. Mr. Hoar dwelt particularly upon the importance of a single vote, declaring that one vote had changed the policy of the country to imperialism. Was it presumable, he inquired, that the framers of the constitution had intended that in such circumstances as the present the great state of Pennsylvania should have in the senate only half of its representation? In response to an inquiry of Mr. Turley, Mr. Hoar said that in the case of a chief executive of a state the responsibility for action or inaction was definitely fixed upon one man. If the governor did not feel that he was correct in his position before his constituents, he would make no appointment. The framers of the constitution, he said, regarded the governor as a fit depository of power in the appointment of a senator, a proper representative, in such action, of the people.

Mr. Hoar, when asked as to precedents in cases involving the seats of senators said: "Precedents in all election cases are of the least value of any precedents of any judicial or quasi judicial tribunals. Political and personal feeling enters into the determination of these cases and the establishment of these precedents."

Senators knew that the three seats claimed by Messrs. Mantle, Allen and Backwith were decided against these gentlemen because they were silver men and the senate was about to enter upon the consideration of the repeal of the Sherman law. "I believe," he said, "that this question will never be settled by any vote until it is settled in the right of the senate, the right of the state and the right of the people that every state shall have its full quota of representation in this chamber."

Mr. Turley cited the hypothetical case of the governor of Kentucky calling troops to the state capital, and dispersing the legislature before the election of the United States senator, as had recently happened, after the election of the senator. He held that if the governor subsequently should appoint a senator the senate would certainly refuse him a seat.

Mr. Elkins (W. Va.) said Mr. Quay's merits or demerits or his personality should have nothing to do with the case, which should be decided only on a proper construction of the constitution.

Mr. Elkins maintained it was clearly the intention of the framers of the constitution that each state should be constantly represented in the senate by two senators, and that as a corollary to that proposition, the chief executive of a state is empowered at all times to fill vacancies that happen during the recess of the legislature. To his mind, the language of the constitution was plain, and if it had been employed in an ordinary business transaction of life, there never would have been the least doubt about its meaning.

GETTING READY FOR REBELLION.

Havana Correspondent of Mobile Register Sent Such Information—Root Starts to Cuba, Being Danger of Something, but Said to Be Not Uprising.

MOBILE, Ala., March 3.—The following was received from the Mobile Register's Havana correspondent under date of Feb. 24:

"I have inside information that there is to be a rising on the island before long. Lately there has been great demand for spurs, machetes and hammocks, the three principal implements of Cuban warfare. Several of the stores have sold out their entire stock of these goods."

WASHINGTON, March 3.—Secretary Root left Washington for a flying trip to Cuba. With him were Mrs. Root, Miss Root, Edward Root, his son; Colonel Carter, assistant adjutant general; Private Secretary W. S. Coursey and Arthur Brooks, attendant. It is expected that the trip will occupy about two weeks. The party will embark on the Sedgwick at Tampa today for Havana.

It is known that the main object of the trip is to enable Secretary Root to confer personally with General Wood, and as the latter will accompany the secretary on his tour around the island, there will be ample opportunities for such conferences. It is gathered from rather urgent communications that have been received from Havana that, notwithstanding the apparent serenity of conditions in Havana and Cuba generally, General Wood has reason for grave apprehension as to the future, not because of the possibility of outbreaks, but rather owing to the extreme gravity of important questions that are pressing from all sides for immediate decision.

## M. E. BISHOPS APPEAL.

Appoint Week of Prayer in the Church, Which Has Decreased in Membership.

MINNEAPOLIS, March 3.—The membership of the Methodist church is less than it was two years ago. A committee, composed of Bishops C. H. Fowler, W. X. Ninde and I. W. Joyce, acting on behalf of the body of bishops, has issued an address to the church.

The conditions are carefully outlined and a week of prayer arranged. This will begin March 25, and daily services are to be held in all Methodist churches in the country.

The address says in part: "Today our Methodism confronts a serious situation. Our statistics for the last year show a decrease in the number of our members. The lost ground is paved with the dead. We are surrounded by powerful enemies. The attack is on every side. It is high time for every Methodist to take himself or herself to prayer and to call mightily on God for help."

Some of Students Rebelled.

PITTSBURGH, March 3.—The juniors of the Western university refused to yield to the stern mandates of the faculty regarding the payment of \$15 penalty for taking a "flunk" book, and were forced into involuntary suspension. The sophomores joined the defiant band, winning over with them the two young women of the class. The freshmen determined to cease reciting, too. The seniors make sport of the whole business. As a result the big school on the hill promises to be practically deserted, unless there is a settlement.

The President in New York.

NEW YORK, March 3.—President McKinley and party arrived here. The president will tonight attend the annual dinner of the Ohio society. The party consisted of President and Mrs. McKinley, Miss Mary Barber, General Corbin, Mr. Cortelyou, one of the president's secretaries; Dr. Rixey, a stenographer and two servants.

## SPURS AND MACHETES

Cubans Laying In Supply, Also Hammocks.

GETTING READY FOR REBELLION.

Havana Correspondent of Mobile Register Sent Such Information—Root Starts to Cuba, Being Danger of Something, but Said to Be Not Uprising.

MOBILE, Ala., March 3.—The following was received from the Mobile Register's Havana correspondent under date of Feb. 24:

"I have inside information that there is to be a rising on the island before long. Lately there has been great demand for spurs, machetes and hammocks, the three principal implements of Cuban warfare. Several of the stores have sold out their entire stock of these goods."

WASHINGTON, March 3.—Secretary Root left Washington for a flying trip to Cuba. With him were Mrs. Root, Miss Root, Edward Root, his son; Colonel Carter, assistant adjutant general; Private Secretary W. S. Coursey and Arthur Brooks, attendant. It is expected that the trip will occupy about two weeks. The party will embark on the Sedgwick at Tampa today for Havana.

It is known that the main object of the trip is to enable Secretary Root to confer personally with General Wood, and as the latter will accompany the secretary on his tour around the island, there will be ample opportunities for such conferences. It is gathered from rather urgent communications that have been received from Havana that, notwithstanding the apparent serenity of conditions in Havana and Cuba generally, General Wood has reason for grave apprehension as to the future, not because of the possibility of outbreaks, but rather owing to the extreme gravity of important questions that are pressing from all sides for immediate decision.

## M. E. BISHOPS APPEAL

Appoint Week of Prayer in the Church, Which Has Decreased in Membership.

MINNEAPOLIS, March 3.—The membership of the Methodist church is less than it was two years ago. A committee, composed of Bishops C. H. Fowler, W. X. Ninde and I. W. Joyce, acting on behalf of the body of bishops, has issued an address to the church.

The conditions are carefully outlined and a week of prayer arranged. This will begin March 25, and daily services are to be held in all Methodist churches in the country.

The address says in part: "Today our Methodist confronts a serious situation. Our statistics for the last year show a decrease in the number of our members. The lost ground is paved with the dead. We are surrounded by powerful enemies. The attack is on every side. It is high time for every Methodist to take himself or herself to prayer and to call mightily on God for help."

Some of Students Rebelled.

PITTSBURGH, March 3.—The juniors of the Western university refused to yield to the stern mandates of the faculty regarding the payment of \$15 penalty for taking a "flunk" book, and were forced into involuntary suspension. The sophomores joined the defiant band, winning over with them the two young women of the class. The freshmen determined to cease reciting, too. The seniors make sport of the whole business. As a result the big school on the hill promises to be practically deserted, unless there is a settlement.

The President in New York.

NEW YORK, March 3.—President McKinley and party arrived here. The president will tonight attend the annual dinner of the Ohio society. The party consisted of President and Mrs. McKinley, Miss Mary Barber, General Corbin, Mr. Cortelyou, one of the president's secretaries; Dr. Rixey, a stenographer and two servants.

Kentucky Case in Court.

LOUISVILLE, March 3.—Argument in the cases involving the title to the offices of governor and lieutenant governor was begun before Judge Fields in circuit court.

Sixty Barrels of Lime Destroyed.  
All the News of the East-  
ern Suburb.

Causing his father a loss of about \$1,200 within two years is the story told of a young man living in the East End district. The facts of the story were given a reporter by the young man's father yesterday afternoon.

The father had been suspecting something wrong for quite a time but not until recently did the facts become clear to him. He is in business, and last year was employed to do some work which took him away from his place of business every day. The son was left in charge of affairs and the father states that while his business was increasing steadily there was a falling off in the receipts. No explanation of the matter was offered by the young man and some weeks ago the father began an investigation. To his surprise he found his son had been living a fast life, and money being at his command he was not slow in having a good time and also paying the bills of his friends, who were many, and ready to accompany him on frequent trips. There was a woman in the case and for her the young man purchased many valuable presents, consisting of jewelry, furs, cloaks. These facts being learned by the young man's father, occasioned no little surprise on the part of the family which is held in high esteem in the district east of Ralston's crossing. # WINE OF CARDUI

## A SURE MEDICINE.

HANDSON, VA., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and B. Ack-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

WINE OF CARDUI

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

The executive committee of the Potters' association and the uniform wage scale committee of the Brotherhood will hold another conference at Pittsburg next Tuesday.

Dun's Review So States of the Weekly Output In Iron and Steel—Re- view of Trade.

NEW YORK, March 3.—R. G. Dun & Co.'s weekly review of trade issued to- day said in part:

Besides the 881 commercial failures for \$9,931,048 which was reported there were in February six banking fail- ures for \$620,241, and receivers were ap- pointed for the United States Flour Milling company, with \$25,000,000 of stock and \$15,000,000 of bonds author- ized at its organization last April, and for Third Avenue Railroad company, after liens for several millions had been placed upon the property. Unless sepa- rated from such events, commercial fail- ures could not be compared with benefit.

The manufacturing failures for \$4- 257,638 were larger than in February of 1893 or 1895, but more than half the amount was in two classes, four large lumber and one clothing failure making 38 per cent of the whole. The trading failures were larger than in February of last year, only but 20 per cent of these defaults were made in five failures. In most branches the comparison with pre- vious years is encouraging and analysis brings out in strong light the remark- ably low average of liabilities in the smaller failures which constitute the great majority indicating sound busi- ness conditions and unusually satisfac- tory collections.

Except across the ocean, where events in South Africa caused nearly all busi- ness to be forgotten, changes in the stock market rank next in financial interest to the rise of cotton. It was a revelation of the appreciation in which American railway stocks are held to see them strongly supported, with Third Avenue falling to about 50 and Flour Milling dis- missed to the hands of receivers.

The small rise in wheat last week, although the price is quite low, sufficed to call from the farms such receipts, 4,105,661 bushels, against 3,195,437 bush- els last year, as to indicate that supplies are not nearly exhausted. Exports from Atlantic ports continue small, for the week, flour included, only 1,812,396 bushels, against 4,663,984 bushels last year, and in four weeks from both coasts exports have been 11,639,250 bushels, against 14,823,373 bushels. Though ex- ports ran behind last year's, which were almost unequalled, they have already exceeded in eight months those of most full years, and the exports of corn, in four weeks 12,724,645 bushels, against 12,051,053 bushels last year, explain much of the difficulty, corn rising 2 1/2 cents the week, while wheat de- cined 1 1/4 cents.

Steel industry continues the greatest weekly output ever known, even while men speak of it as waiting for more definite assurances about the future. Prices of pig yield a little, some sales of Bessemer having been made at Pittsburgh for \$24, and anthracite No. 1 is quoted here at \$23.50. Billets have been sold at \$33 at Pittsburgh. For most fin- ished products prices are stronger than a week ago, or as strong, bars and sheets being strengthened by large business, while only plates appear weaker, 2.10 being quoted for sizes not the widest. Coke is scarce and higher in spite of the largest output ever known, and the wages of hands have been raised 12 1/2 per cent to the highest ever paid.

Failures for the week were 222 in the United States, against 186 last year, and 28 in Canada, against 470 last year.

CHRISTIAN ENDEAVOR.

Topic For Week Beginning March 4. Comment by Rev. S. H. Doyle.

Topic.—How God pays men.—Math. xix, 30; xx, 1-16.

"Many that are first shall be last, and the last shall be first" (Math. xix, 30). This truth is illustrated imme- diately by Christ by the parable of the laborers in the vineyard.

THE PARABLE.

The kingdom of heaven is likened un- to a householder who early in the morning hired laborers for his vine- yard, who agreed to labor for a penny a day. At the third, sixth, ninth and eleventh hours he hired other laborers on condition that he would pay them what was right. When the day's work was done and a settlement was made, "they received every man a penny." The first hour laborers complained that they had been unjustly treated in that they received no more than those who had labored but one hour. But the householder insisted that he had paid them the bargained price for their lab- or and claimed further the right to do as he pleased with his own.

THE INTERPRETATION.

This is conceded to be one of the most difficult of Christ's parables to understand and explain. It is unnatu- ral and seems at least to be unjust un- til understood. The householder is God. The vineyard is the church. The steward is Christ. The laborers are God's servants in the church. The wages are God's final rewards when life's day is done. But two questions need to be answered: 1. Whom do the different laborers represent? Whoever they may represent, they cannot repre- sent the same persons at the different periods in their lives. Therefore there can be found here no encouragement to any one to put off serving God till late in life with the hope of being as fully rewarded as if he had served God throughout his entire life. The laborers represent at least different persons called at different times in the church's history and who responded to the first call. For instance, they may represent the Jews, who were called first, and the gentiles or different pe- riods in the life of the church since Christ's time. 2. Why were all paid alike, since some worked longer than others? The best explanation seems to be that the difference resulted from the different spirit in which the labor was performed. The first laborers made a bargain. They were to get a penny for the day's labor. They worked for wages and hence could not justly com- plain. The others made no bargain. They left the matter of pay entirely to the householder. They confided and trusted in him. They represent not the labor of the hirelings, but the labor of confidence and of love, which always receives the greater reward. The hire- lings received hireling wages. The confiding, trustful laborers were paid in the spirit in which they had labored. Can we wonder, therefore, that it was larger than the former?

THE APPLICATION.

How does God pay men? Not in pro- portion to the time or quantity of labor performed, but in accordance with the spirit in which the labor is performed. The man who labors for wages will re- ceive his wages, and the one who, for- getful of rewards and wages, out of a heart full of gratitude and love, ren- ders unto God a life of loving, grateful service will be rewarded in the same spirit. Can we doubt as to which will receive the greater reward?

THE PRAYER MEETING.

Have a catechetical meeting. A num- ber of important and interesting ques- tions can be asked upon this parable and topic. Distribute the questions at least a week before the meeting and have the leader ask them in regular order, so as to bring out the explana- tion and application of the parable.

Bible Readings.—Gen. xv, 1; Ps. i, 1-6; xvi, 1-11; Mal. iii, 8-18; Matth. v, 11, 12; vi, 19-21; xxv, 31-46; Acts iii, 1-10; I Cor. i, 27-31; Eph. iii, 8-10; Col. ii, 1-3; Rev. ii, 10; iii, 14-22; vii, 9-17.

Modern Self Sufficiency.

A dominant characteristic of the time is self sufficiency. One meets with it everywhere. We look down upon cul- ture of the last generation. We are so much wiser than our fathers that it is needless to talk of what they said or did. Even over religion affectation has placed a sort of directing goddess. We must bridle our emotions. Fervid speech is no longer conventional. To say nothing prettily is a great achieve- ment. The Bible itself needs revision. The prophets are old fashioned; even the New Testament is antiquated. So

are not nearly exhausted. Exports from  
Atlantic ports continue small, for the  
week, flour included, only 1,812,306  
bushels, against 4,663,984 bushels last  
year, and in four weeks from both coasts  
exports have been 11,639,300 bushels,  
against 14,823,373 bushels. Though ex-  
ports ran behind last year's, which were  
almost unequaled, they have already  
exceeded in eight months those of most  
full years, and the exports of corn, in  
four weeks 12,724,645 bushels, against  
12,051,053 bushels last year, explain  
much of the difficulty, corn rising 3/4  
cent during the week, while wheat de-  
clined 1 1/4 cents.

steel industry continues  
the greatest weekly output ever known,  
even while men speak of it as waiting  
for more definite assurances about the  
future. Prices of pig yield a little, some  
sales of Bessemer having been made at  
Pittsburg for \$24, and anthracite No. 1  
is quoted here at \$23.50. Billets have been  
sold at \$33 at Pittsburg. For most fin-  
ished products prices are stronger than  
a week ago, or as strong, bars and sheets  
being strengthened by large business,  
while only plates appear weaker, 2.10  
being quoted for sizes not the widest.  
Coke is scarce and higher in spite of the  
largest output ever known, and the  
wages of hands have been raised 12 1/2  
per cent to the highest ever paid.

Failures for the week were 222 in the  
United States, against 186 last year, and  
28 in Canada, against 470 last year.

CHRISTIAN ENDEAVOR.

People For Week Beginning March 4.  
Comment by Rev. S. H. Doyle.

TOPIC.—How God pays men.—Math. xix, 30;  
xx, 1-16.

"Many that are first shall be last,  
and the last shall be first" (Math. xix,  
30). This truth is illustrated imme-  
diately by Christ by the parable of the  
laborers in the vineyard.

THE PARABLE.

The kingdom of heaven is likened un-  
to a householder who early in the  
morning hired laborers for his vine-  
yard, who agreed to labor for a penny  
a day. At the third, sixth, ninth and  
eleventh hours he hired other laborers  
on condition that he would pay them  
what was right. When the day's work  
was done and a settlement was made,  
"they received every man a penny." The  
first hour laborers complained that  
they had been unjustly treated in that  
they received no more than those who  
had labored but one hour. But the  
householder insisted that he had paid  
them the bargained price for their la-  
bor and claimed further the right to do  
as he pleased with his own.

THE INTERPRETATION.

This is conceded to be one of the  
most difficult of Christ's parables to  
understand and explain. It is unnatu-  
ral and seems at least to be unjust un-  
til understood. The householder is  
God. The vineyard is the church. The  
steward is Christ. The laborers are  
God's servants in the church. The  
wages are God's final rewards when  
life's day is done. But two questions  
need to be answered: 1. Whom do the  
different laborers represent? Whoever  
they may represent, they cannot repre-  
sent the same persons at the different  
periods in their lives. Therefore there  
can be found here no encouragement  
to any one to put off serving God till  
late in life with the hope of being as  
fully rewarded as if he had served  
God throughout his entire life. The  
laborers represent at least different  
persons called at different times in the  
church's history and who responded to  
the first call. For instance, they may  
represent the Jews, who were called  
first, and the gentiles or different pe-  
riods in the life of the church since  
Christ's time. 2. Why were all paid  
alike, since some worked longer than  
others? The best explanation seems to  
be that the difference resulted from the  
different spirit in which the labor was  
performed. The first laborers made a  
bargain. They were to get a penny for  
the day's labor. They worked for  
wages and hence could not justly com-  
plain. The others made no bargain.  
They were to receive what was right.  
They left the matter of pay entirely to  
the householder. They confided and  
trusted in him. They represent not the  
labor of the hirelings, but the labor of  
confidence and of love, which always  
receives the greater reward. The hire-  
lings received hireling wages. The  
confiding, trustful laborers were paid  
in the spirit in which they had labored.  
Can we wonder, therefore, that it was  
larger than the former?

THE APPLICATION.

How does God pay men? Not in pro-  
portion to the time or quantity of labor  
performed, but in accordance with the  
spirit in which the labor is performed.  
The man who labors for wages will re-  
ceive his wages, and the one who, for-  
getful of rewards and wages, out of a  
heart full of gratitude and love, ren-  
ders unto God a life of loving, grateful  
service will be rewarded in the same  
spirit. Can we doubt as to which will  
receive the greater reward?

THE PRAYER MEETING.

Have a catechetical meeting. A num-  
ber of important and interesting ques-  
tions can be asked upon this parable  
and topic. Distribute the questions at  
least a week before the meeting and  
have the leader ask them in regular  
order, so as to bring out the explana-  
tion and application of the parable.

Bible Readings.—Gen. xv, 1; Ps. i,  
1-6; xvi, 1-11; Mal. iii, 8-18; Math. v,  
11, 12; vi, 19-21; xxv, 31-46; Acts iii,  
1-10; I Cor. i, 27-31; Eph. iii, 8-10; Col.  
ii, 1-3; Rev. ii, 10; iii, 14-22; vii, 9-17.

Modern Self Sufficiency.

A dominant characteristic of the time  
is self sufficiency. One meets with it  
everywhere. We look down upon cul-  
ture of the last generation. We are so  
much wiser than our fathers that it is  
needless to talk of what they said or  
did. Even over religion affectation has  
placed a sort of directing goddess. We  
must bridle our emotions. Fervid  
speech is no longer conventional. To  
say nothing prettily is a great achieve-  
ment. The Bible itself needs revision.  
The prophets are old fashioned; even  
the New Testament is antiquated. So

of absorbing interest.—New York Ex-

Committee Fixed the Value on Farm Lands.

THE FIGURES WERE NOT HIGH

And It Won't Break Any of the Property Owners to Pay Their Assessments—The Light Franchise Was Also Discussed and George Is Ordered to Establish a Grade.

Councilmen Marshall, Smith, Cain and Ashbaugh met yesterday afternoon in the office of Engineer George for the purpose of setting a value on the farm lands along Pennsylvania avenue. It took the committee nearly all afternoon, but they succeeded in getting the work finished.

The committee placed a value of \$50 on 36 lots; \$40 on 15 lots; \$45 on one lot; \$35 on 45 lots; \$30 on 32 lots; \$25 on four lots; \$90 on two lots; \$105 on one lot; \$75 on one lot.

The committee then had an informal discussion upon the electric light franchise, but took no action, and finally decided to take a walk up to Thompson's hill, where S. H. Porter wants to build a new house and he wants a grade. The committee viewed the place and instructed the engineer to establish a grade on Pennsylvania avenue from Robinson street to Ravine street.

A mistake was made in the count, and when the totals were footed up it was discovered that there were 164 votes and only 141 ballots. The tangle will be straightened out by Monday.

The literary exercises were excellent, and the debate, "Resolved, That war promotes civilization," was won by the affirmative, Miss Helen Orr and Mr. Thompson. The negative was represented by Miss Laura Hill and Ralph Mackintosh.

## GET INSIDE.

Your Friends and Neighbors in East Liverpool Will Show You How.

Rubbing the back won't cure backache.

A liniment may relieve, but can't cure. Backache comes from the inside, from the kidneys.

Doan's kidney pills get inside.

They cure sick kidneys.

Here is East Liverpool proof that this is so:

Mr. H. Thompson, of 306 Fourth street, presser at the D. E. McNicol pottery, and resident of East Liverpool for the past 45 years, says: "During my campaign experiences between the years of '61 and '64 I contracted a weakness of the kidneys, and at intervals I had an aching pain across the small of my back and was subject to attacks of muscular rheumatism especially in damp weather. I was frequently so bad that I could scarcely get up when down, and in fact could hardly get around at all. I tried many remedies endeavoring to get rid of my trouble, but found nothing until I got Doan's kidney pills at the W. & W. pharmacy. They filed the bill exactly, giving me almost immediate relief, and warded off the last attack."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no other.

No other M. D. has so many cures to his credit. No other M. D. has made so many wonderful cures. So-called "honest" cases, chronic cases, "incurable" cases have all been cured, not once or twice, but thousands of times, by the use of that remarkable remedy

## Dr. Pierce's Golden Medical Discovery.

"My husband had been coughing for years and people frankly told me that he would go into consumption," writes Mrs. John Shireman, of No. 255 25th Place, Chicago, Ills. "In the spring of 1888 he took measles. He caught cold, the measles then settling on his lungs, causing such terrible coughing spells, we not only grew much alarmed, but looked for the bursting of a blood vessel or a hemorrhage at almost any time. After three days' coughing he was too weak to cross the room. The doctor who lived with us on the same floor did him no good. I went to the other end of the town and stated the case to a druggist, who then handed me a bottle of Dr. Pierce's Golden Medical Discovery. My husband's recovery was remarkable in its speed. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around and in two more days he went to work. Two bottles cured him."

Sick people are invited to consult Dr. Pierce by letter absolutely free of charge. Every letter is treated as strictly private and sacredly confidential. All answers are sent in plain envelopes without any printing upon them. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Trip to Chinatown.

Hoyt's farcical skits have always been good drawing cards in this city, but the coming engagement of "Chinatown," which holds the record for the longest continuous run in America, and which is known to be the greatest money maker of all the Hoytian output, is more than likely to score another record here if one can judge by the heavy demand for seats so early in advance. At the Grand Tuesday night.

Smith Fowler and Attorney F. E. Grosshans were in Beaver today foreclosing a mortgage on a farm near Smith's Ferry.

#### Back From Chicago.

Superintendent R. E. Rayman returned to the city at noon from Chicago, where he had been attending a meeting of the National School Superintendents' association. He states the sessions were very interesting.

### GET INSIDE.

Your Friends and Neighbors in East Liverpool Will Show You How.

Rubbing the back won't cure backache.

A liniment may relieve, but can't cure. Backache comes from the inside, from the kidneys.

Doan's kidney pills get inside.

They cure sick kidneys.

Here is East Liverpool proof that this is so:

Mr. H. Thompson, of 306 Fourth street, presser at the D. E. McNicol pottery, and resident of East Liverpool for the past 45 years, says: "During my campaign experiences between the years of '61 and '64 I contracted a weakness of the kidneys, and at intervals I had an aching pain across the small of my back and was subject to attacks of muscular rheumatism especially in damp weather. I was frequently so bad that I could scarcely get up when down, and in fact could hardly get around at all. I tried many remedies endeavoring to get rid of my trouble, but found nothing until I got Doan's kidney pills at the W. & W. pharmacy. They filed the bill exactly, giving me almost immediate relief, and warded off the last attack."

For sale by all dealers Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no other.

No other M. D. has so many cures to his credit. No other M. D. has made so many wonderful cures. So-called "honorless" cases, chronic cases, "incurable" cases have all been cured, not once or twice, but thousands of times, by the use of that remarkable remedy

## Dr. Pierce's Golden Medical Discovery.

"My husband had been coughing for years and people frankly told me that he would go into consumption," writes Mrs. John Shireman, of No. 255 25th Place, Chicago, Ills. "In the spring of 1888 he took measles. He caught cold, the measles then settling on his lungs, causing such terrible coughing spells, we not only grew much alarmed, but looked for the bursting of a blood vessel or a hemorrhage at almost any time. After three days' coughing he was too weak to cross the room. The doctor who lived with us on the same floor did him no good. I went to the other end of the town and stated the case to a druggist, who then handed me a bottle of Dr. Pierce's Golden Medical Discovery. My husband's recovery was remarkable in its speed. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around and in two more days he went to work. Two bottles cured him."

Sick people are invited to consult Dr. Pierce by letter absolutely free of charge. Every letter is treated as strictly private and sacredly confidential. All answers are sent in plain envelopes without any printing upon them. Address Dr. R. V. Pierce, Buffalo, N. Y.

### COMING ATTRACTIONS.

#### A Magician of Today.

Magician Kellar is justly entitled to rank as the greatest magician the world has yet produced, for in his entertainments, as they are given this season, he so far outranks all competitors as to stand absolutely alone. Everything he does is presented upon a fully lighted stage, and he never uses screens or traps or coverings to hide any part of his work. Grand tonight.

#### A Trip to Chinatown.

Hoyt's farcical skits have always been good drawing cards in this city, but the coming engagement of "Chinatown," which holds the record for the longest continuous run in America, and which is known to be the greatest money maker of all the Hoytian output, is more than likely to score another record here if one can judge by the heavy demand for seats so early in advance. At the Grand Tuesday night.

#### Foreclosed a Mortgage.

Smith Fowler and Attorney F. E. Grosshans were in Beaver today foreclosing a mortgage on a farm near Smith's Ferry.

#### Back to Work Again.

Conductor Jordan, of the pony crew, who has been ill at his home in Wells-ville for the past ten days, has resumed his post of duty.

## EPWORTH LEAGUE.

Topic For the Week Beginning  
March 4. "How God Pays Men."  
Text, Math. xii, 30; xx, 1-16.

"They received every man a penny."  
Some had worked only an hour. They had no expectation of receiving more than one hour's pay. They were paid a day's wage. They earned a little and were given much because of their need and their employer's generosity.

Some worked all day and received their stipulated wage. This was justice. It supplied all their need. There was no call for more except from this greed. The employer saw no occasion for exercising generosity toward them. To have given charity would have been to waste his money and encourage in them the pauper spirit. It would be a possible bid for indolence on the morrow and refusal or neglect to work more than the one hour.

Things are not distributed evenly in this world. Why should they be? Justice and generosity are both needed. Neither requires that all persons shall share alike in honors, opportunities, pleasures, privations and pains. Fraternity among men does not largely depend upon equality in social condition nor upon equal ability in acquiring wealth. Liberty to make the most of oneself and attain the most worthy character is dependent in but small degree upon accidents of birth, occupation and riches. All dreams of equality based on an equal distribution of wealth and all attempts to realize such a social condition must be doomed to failure in such a world as this, where the Lord of the Manor conducts his work on the plan shown in this parable. No one is defrauded of his right to labor and to receive proper compensation. No one has the right to complain because his fellow worker receives a gift, if his own pay is not thereby made unjustly small.

Gratitude and admiration and not envy and censure are the sentiments which the generosity of the Master should awaken in all His laborers.

Men are unlike in make up and widely differ in desires and aims as well as in equipment. No dead level of sameness can be maintained for any length of time, even if it could be established, which it cannot be.

Some can serve but one hour at the utmost; others can and should serve the whole day. Each should do his duty because the Master has hired him and not because of what his fellow workers say and feel. Every one should rejoice in the knowledge that he shall be dealt with justly and all his needs will be supplied. He has no claim on charity but his need, and it is his business to labor diligently to supply all his need so far as he can himself.

Consider how generously God has dealt with you, and it will save you from jealousy of your neighbor, from covetousness and complaining.

### The Worth of Work.

Value depends largely on the position from which it is received. How much is God really indebted to you for what you have done so far in this world? Have you contributed in any way to its betterment? Is it a more valuable world to Him because you have been here? What is your work, and what are you worth to Him?

What is your position worth to you? Are you getting anything out of it worth while? Of one man at least it was true "It were better for that man if he had never been born." Some persons ruin more stock than their work is worth. Some men end worse than they began. It is bad enough to spoil work; it is far worse to ruin oneself.

Not what one gets, but what he becomes is the most valuable result of work in this world. Manhood counts for more than money. "Wisdom is above rubies." Work gives the chance to make worth of character, and this is much more than increasing value of products over cost of raw material. The hands are busy with yardstick, scales, hammer, loom and spindle. Pen and tongue are busy. Planning and inventing and persuading tax all powers, and all these bring cash. Of more permanent value and of higher worth is the development of self they afford. The man is made greater than all his work if he be a true workman. He gets capacity and skill and ability beyond all his wages. He earns more than the pay roll can ever indicate. Enlargement of purse is the first result and is needful, but stronger hands,

quicker eyes and ears, warmer heart and broader soul is better, and all these lie at the end of the day's labor for him who works with God.

### He Is Coming.

It may be in the evening  
When the work of the day is done  
And you have time to sit in the twilight  
And watch the sinking sun.  
Let the door be on the latch  
In your home;  
For it may be in the gloaming  
I will come.

It may be when the midnight  
Is heavy upon the land,  
With the black waves lying dumbly  
Along the sand.  
Though you sleep, tired out, on your couch,  
Still your heart must wake and watch  
In the dark room;  
For it may be that at midnight  
I will come.

It may be at the cockcrow,  
When the night is dying slowly  
In the sky.  
Behold, I say unto you, watch!  
Let the door be on the latch  
In your home.  
In the chill before the dawning,  
Between the night and morning,  
I may come.

"Weep not," He said, "for unto you is given  
To watch for the coming of His feet  
Who is the glory of our blessed heaven.  
The work and watching  
Will be very sweet  
Even in an earthly home,  
And in such an hour as ye think not  
He will come."

### A DAY IN WALL STREET.

The Metal Stocks Affected by Rumors of  
New Combinations, Labor  
Troubles, Etc.

NEW YORK, March 3.—The stock market failed to show any positive strength at any time during the day, Friday, and in the late dealings the whole list yielded to bear pressure on the news of the threatening aspect of affairs amongst the metal workers in Chicago. The bears supplemented the news of the labor troubles with many vague rumors of a purpose to defer dividends. Reports were circulated also of enormous rival combinations to be organized to compete in this industry. As the result of this pressure, the majority of the stocks in the group were depressed from 2 1/4 to 3 points. The character of much of the selling was made obvious by the sharp rallies on bear coverings, American Hoop, Tennessee Coal and National Steel recovering from 2 to 3 points at different times.

Sugar dropped to par for the first time since the summer depression of 1896, incident to the national political campaign, and fell further to 96 1/2, rallying feverishly and closing unsteady at a net loss of 6 1/4. Third Avenue suffered from additional liquidation incident to fears of a heavy assessment on the stock, and fell an extreme 4 1/4, to a level almost 200 points under the high price of February last year. The stock rallied sharply and was well supported during the latter part of the day.

The railroad stocks yielded unwillingly until the late raid on the market, when large blocks were thrown over, St. Paul leading the decline with an extreme drop of 2 points. Baltimore and Ohio, New York Central and Southern Pacific were also notably affected. The late rally on bear covering reduced the net losses of the railroads to fractions, except in the cases mentioned.

The prospect of a heavy decline in surplus reserves in the bank statement induced some selling, but the preliminary estimates of the cash movement by express indicate a small net gain in the interior movement. This is attributed to shipments by interior banks to New York for the purpose of buying government bonds. But the gain on this account is quite insignificant compared with the week's losses by the banks to the sub-treasury, which have amounted to \$7,498,000, thus making inevitable a further decline of several millions in the surplus reserves of the banks.

The bond market was rather dull and prices yielded in sympathy with stocks. Total sales par value \$1,035,000.

United States 5s declined 1/2 in the bid price.

### The Chicago Grain Market.

CHICAGO, March 3.—The wheat market opened weak Friday on the heavy Argentine shipments and lower Liverpool cables, but recovered on a better cash demand, closing firm, May a shade over Thursday. May corn closed a shade lower, May oats unchanged and the provision markets 2 1/2 @ 5 cents improved.

### Funeral of Samuel Manear.

HARRISBURG, March 3.—Samuel Manear, the last of the three Democrats who betrayed Colonel John W. Forney in the legislature of 1857 and voted for General Simon Cameron for United States senator, was buried in Harrisburg cemetery. Mr. Manear died at the residence of his daughter, in this city, at the age of 84 years.

WASHINGTON, March 3.—Congressman Sydney Eppes, of Virginia, who was operated on for appendicitis, died at Garfield hospital.

## EPWORTH LEAGUE.

Topic For the Week Beginning  
March 4, "How God Pays Men."  
Text, Math. xii, 30; xx, 1-16.

"They received every man a penny."

Some had worked only an hour. They had no expectation of receiving more than one hour's pay. They were paid a day's wage. They earned a little and were given much because of their need and their employer's generosity.

Some worked all day and received their stipulated wage. This was justice. It supplied all their need. There was no call for more except from this greed. The employer saw no occasion for exercising generosity toward them. To have given charity would have been to waste his money and encourage in them the pauper spirit. It would be a possible bid for indolence on the morrow and refusal or neglect to work more than the one hour.

Things are not distributed evenly in this world. Why should they be? Justice and generosity are both needed. Neither requires that all persons shall share alike in honors, opportunities, pleasures, privations and pains. Fraternity among men does not largely depend upon equality in social condition nor upon equal ability in acquiring wealth. Liberty to make the most of oneself and attain the most worthy character is dependent in but small degree upon accidents of birth, occupation and riches. All dreams of equality based on an equal distribution of wealth and all attempts to realize such a social condition must be doomed to failure in such a world as this, where the Lord of the Manor conducts his work on the plan shown in this parable. No one is defrauded of his right to labor and to receive proper compensation. No one has the right to complain because his fellow worker receives a gift, if his own pay is not thereby made unjustly small.

Gratitude and admiration and not envy and censure are the sentiments which the generosity of the Master should awaken in all His laborers.

### RATCHFORD ON TAYLER.

Says the Congressman's Experience Entitles him to Renomination.

M. D. Ratchford, of the national industrial commission, is an ardent supporter of Congressman R. W. Tayler. He says:

"Mr. Tayler is a hard and earnest worker and certainly a good representative. His record is so clean that even his political opponents have never successfully assailed it, and his influence in congress, as a result of the marked ability displayed in the celebrated 'Roberts case' and other public questions, is tenfold greater than ever before.

"Coupled with these enviable qualities is the fact that as our representative in congress for six years, Mr. Tayler has acquired a thorough knowledge of the various industries of our district and of the wants of our people, so far as federal legislation is concerned, which knowledge is of the highest importance, and can only be gained by years of actual experience.

"In view of these things, and much more that could be said, I can hardly believe that the Republicans of the Eighteenth district want a new congressman. Mr. Tayler is filling the seat with credit, once so well filled by McKimly, and should he be returned to congress his re-election means an endorsement of the policy of the party which he has so loyally supported, a well deserved tribute to his ability as a man and a compliment to the judgment of those who have given him three successive elections."

## YOUR HOME CONCERT

You Can Have an Evening of Genuine Pleasure.

SOLOS, ORCHESTRAS, CHIMES

Laughable Situations, Side Splitting Jokes, Music, Mirth, Melody and Fun Galore, In Company With "Uncle Josh," the Prince of Merry Makers, Can Be Had at Your Command In the Home Circle, Seated by Your Own Cozy Fireside.

Say, readers of the NEWS REVIEW, you who desire to "drive dull care to the winds," and at the same time add very much to the pleasure and delight of the home circle, have you ever tried the power of an EDISON PHONOGRAPH?

If not, then you have a genuine treat in store. You can have the finest orchestra in the land, subject to your wish and order, rendering choice selections any time, by day or by night.

You can have banjo selections or duets, and the players are men who have won national reputations for skill in their specialties.

You can have wit and merriment galore, as "Uncle Josh" relates scenes and incidents in connection with his trip to various cities, receptions, watering places, camp meetings and society socials, and you can save doctor's bills and bills for medicine by and through the health giving laughter involuntarily evoked.

You can have church chimes right in your own room, the essence of sacred melody, secured at the expenditure of many thousands of dollars.

You can have "The Holy City," "Beulah Land," "Nazareth" and other choice selections of sacred music, sung by soloists of wide spread fame as vocalists, men who have charmed great audiences in this nation.

You can have pathetic songs, comic songs, comic recitations, comic situations, love songs, minstrel performances, dialect songs, funny Yankee, Dutch, Irish and Yodler songs and conversations. In fact, you can have an irreproachable and refined entertainment, sure to please wife, children, your occasional visitors and personal friends, and the entertainment will cost you almost nothing.

We know whereof we speak. We were slow to invest in the first place; but, being persuaded, we have now become full fledged converts, and would not part with the Edison phonograph, and a rare selection of records, unless

we felt assured that we could replace the same.

If you desire to share with us in the delights and pleasures above described, pay a visit to the fine music house of SMITH & PHILLIPS, corner Washington and Fourth streets, where you will receive a courteous welcome, and where you can listen to wonderful talking and singing machines and make selections among the thousands of records there on exhibition, while you can secure an instrument and records on the most favorable terms. Don't delay, but ACT at once.

## RATCHFORD ON TAYLER.

Says the Congressman's Experience Entitles him to Renomination.

M. D. Ratchford, of the national industrial commission, is an ardent supporter of Congressman R. W. Tayler. He says:

"Mr. Tayler is a hard and earnest worker and certainly a good representative. His record is so clean that even his political opponents have never successfully assailed it, and his influence in congress, as a result of the marked ability displayed in the celebrated 'Roberts case' and other public questions, is tenfold greater than ever before.

"Coupled with these enviable qualities is the fact that as our representative in congress for six years, Mr. Tayler has acquired a thorough knowledge of the various industries of our district and of the wants of our people, so far as federal legislation is concerned, which knowledge is of the highest importance, and can only be gained by years of actual experience.

"In view of these things, and much more that could be said, I can hardly believe that the Republicans of the Eighteenth district want a new congressman. Mr. Tayler is filling the seat with credit, once so well filled by McKinley, and should he be returned to congress his re-election means an endorsement of the policy of the party which he has so loyally supported, a well deserved tribute to his ability as a man and a compliment to the judgment of those who have given him three successive elections."
